

## Vaccine Schedule for Your Cat

We make the following recommendations for maximal protection against certain serious infectious diseases that could affect your pet. New vaccines are now available and the age of the cat makes each series an individual one.

- Feline Viral Rhinotracheitis..... A viral disease of the eyes, nose, and throat (cat flu, upper respiratory infections).
- Calicivirus..... A viral disease of the eyes, nose, and throat (cat flu, upper respiratory infections).
- Panleukopenia (Distemper)..... A viral disease of the blood and intestines (cat fever, infections enteritis).
- Rabies..... A viral infection of the nervous system that affects all mammals.
- FeLV (Feline Leukemia Virus)..... A highly contagious virus of cats which brings about many diseases and is a leading cause of death.
- Chlamydia..... A highly contagious upper respiratory disease.
- FIP..... A viral infection that affects cats of all ages and is usually fatal.

### KITTENS

Program	Age	Vaccinate Now		Remainder of Series & Age Given	
1	6 wks.	FVRCP (killed)	FVRPCP/FeLV – 10 wks.	FVRPCP/RABIES FeLV – 14 wks.	FIP* - 16 wks.
2	7 wks.	FVRCP (killed)	FVRPCP/FeLV – 11 wks.	FVRPCP/RABIES FeLV – 14 wks.	FIP* - 16 wks.
3	8 wks.	FVRCP (killed)	FVRPCP/FeLV – 11 wks.	FVRPCP/RABIES FeLV – 14 wks.	FIP* - 16 wks.
4	9 wks.	FVRCP (killed)	FVRPCP/FeLV – 12 wks.	FVRPCP/RABIES FeLV/FIP* – 16 wks.	
5	10 wks.	FVRPCP/FeLV	FVRPCP/FeLV – 13 wks.	RABIES/FIP* FVRPCP – 16 wks.	
6	11 wks.	FVRPCP/FeLV	FVRPCP/FeLV – 14 wks.	RABIES/FIP* FVRPCP – 17wks.	<b>6 Month</b>
7	12 wks.	FVRPCP/FeLV	FVRPCP/RABIES FeLV/FIP – 16 wks.	FIP – 19 wks.	<b>Neuter</b>
8	13 wks.	FVRPCP/RABIES FeLV	FVRPCP/RABIES FeLV/FIP – 16 wks.	FIP – 19 wks.	<b>Microchip</b>
9	14 wks.	FVRPCP/RABIES FeLV	FVRPCP/RABIES FeLV/FIP – 17 wks.	FIP – 20 wks.	
10	15 wks.	FVRPCP/RABIES FeLV/FIP	FVRPCP/RABIES FeLV/FIP – 18 wks.		

\*2<sup>nd</sup> FIP to be given in three weeks.

We recommend testing your cat for FeLV at 6 – 8 weeks of age, prior to FeLV vaccination.

#### VACCINATED ADULTS

1. FVRPCP.....Yearly Booster
2. FeLV.....Yearly Booster
3. Rabies (under 1 year of age).....Yearly Booster
4. Rabies (over 1 year of age).....Three-Year Booster
5. FIP - Outside cats (over 4 months).....Yearly Booster

ALL HOSPITALIZED CATS MUST HAVE CURRENT FVRPCP

#### Parasite Alert

Internal parasite tests are recommended for all kittens, pets with diarrhea, and at yearly examinations. Please bring a fresh specimen of your pet's stool (feces) for this important test. Remember, most parasites are not visible to the naked eye and only a microscopic exam will reveal the presence of the eggs or larvae.

#### PREPAID FECAL PROGRAM

Give worming medicine by mouth today and repeat every 2 weeks until gone. Drop off fresh stool sample 3 weeks after the last dose.
